

#yeast2023

31<sup>st</sup> International Conference on Yeast Genetics and Molecular Biology

# ICYGMB31

20-25 August 2023  
Florence, Italy

## Plenary Sessions

## Satellite Workshops

- Yeast evolutionary genomics
- Systems level reconstruction of cell-cell interactions
- Yeast commensalism and pathogenesis
- Synthetic and Systems Biology
- Biotechnology
- Classical yeast genetics and molecular biology
- Yeast as a model to study human diseases
- Yeast cells and organelles as cell factories

- Yeast Ecology and Fermentations: the intimate relationship of *S. cerevisiae* and fermented foods
- Yeast probiotics, trained immunity and the fungal microbiome.

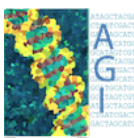

**LAST DAYS  
FOR EARLY BIRD  
REGISTRATION!**

**Deadline  
5<sup>th</sup> of June**

**Abstract submission  
until  
17<sup>th</sup> of July**

## International Scientific Committee

Andri Sibirny  
 Jens Nielsen  
 Terrance Cooper  
 Steve Oliver  
 Diethard Mattanovich  
 the Finance and Policy Committee (FINPOL)  
 Meeting chair: Duccio Cavalieri
