

**WADI Project**

**CEDARE**

## **Objectives of the Meeting**

to conduct a preliminary stakeholders' consultation on Lake Maryuit in order to:

- identify the interests of various stakeholders in lake Maryuit in terms of their current and potential benefits and costs
- identify common grounds and/or differences among various stakeholders
- provide inputs to next step of valuing the benefits and costs associated with different stakeholders

## **Meeting Strategy**

- this is an open forum for discussion with different stakeholders, focusing on their interests in Lake Maryuit
- as researchers, we need to understand the interests of each stakeholder and the underlying benefits and costs involved
- keep in mind other Mediterranean study sites, for similarities and/or differences
- a field visit to Lake Maryuit will be carried out on Tuesday
- A brain storming session will be held among the partners to sum up the outcome of the meeting
